\$31,113.00

Recommended Quote or Bid:
Azteca Systems Inc.

\$31,113.00

General Information:

This software renewal and upgrade are part of a five year plan to incorporate a very robust asset management software system. This purchase updates our current asset management system software to a server based product, which allows for more flexibility and mobility in the future.

Our asset management system contains data on all of our infrastructure assets, such as water system, sanitary sewer system, storm sewer system, traffic signs, street lights, etc. This purchase was identified in the 2013-2017 Capital Improvement Program under UT-12-008 Asset Management Update and is funded through the sanitary sewer, storm sewer, and water utility funds.
